

### Outbreak of Thefts from Cars Reported

Both the Grayling City Police and the Crawford County Sheriff Department have received numerous calls about thefts from cars recently. Ice fishing equipment, new tires and rims, car stereos, and tools have all been reported stolen from cars. Grayling City Police Chief Pete Stephan warns all residents to lock their cars when unattended. Anyone with information about the thefts can call the Grayling City Police at 348-4621 or the sheriff department at 348-6341.

### Another Car Fire Reported

Another car fire, which police believe to be arson, was reported at Camp Grayling about 11:26 p.m. Easter Sunday. The security guard at Camp Grayling heard an explosion and found a vehicle burning on Lake Street near Howe Road. Sheriff deputies said the owner of the vehicle is unknown at this time but they are following several leads.

Another car fire believed to be arson was reported March 26 in an oil field in Beaver Creek west of Military Rd. Anyone with information about the fires can call the anonymous police tip line at 348-6341, ext. 3000.

### Preliminary Hearing Set April 15 For Criminal Sexual Assault Suspect

A suspect in a criminal sexual assault of a Gaylord High School student March 11 is scheduled for a preliminary hearing in District Court in Gaylord April 15. The 29-year-old suspect was arrested by the Frederic Constable and Crawford County Sheriff deputies in Frederic Township the day of the assault. Information concerning the case has been suppressed by the District Court Judge, and Gaylord City Police and the Otsego County District Court office say they cannot release the suspect's name.

### 3 Injured in M-72 Accident

A local man and two Flint residents sustained injuries when their vehicles hit head-on about 10:55 p.m. April 4 on M-72 West near Danish Landing.

Arnold Stancil, 42, of Grayling, driving one car, and Richard Swanson, 55, driving the other vehicle with passenger Jamie Briley, 15, were treated and released from Mercy Hospital. The Crawford County Sheriff Department said the vehicles collided when one car hit slush on the road and was forced into the next lane. All three were transported to the hospital by a passing motorist. Both vehicles were totaled according to sheriff deputies and they said Stancil was wearing his seat belt and it probably saved him from serious injury.

### Surplus Food Distributed April 16

Surplus food to be distributed April 16 from 10 a.m. to 3 p.m. at the Eagles Club.

The commodities are to be given to low income persons. To receive commodities a person must present a certification card or verification of income. Those presenting verification of income will receive certification cards and cheese at the distribution site if the income falls within federally established poverty guidelines.

Please do not call the Eagles for information. For information call 348-5852.

### City of Grayling Begins Annual Spring Cleanup Program

The Grayling City Police Dept. is completing a survey of the Grayling residential and business areas regard unregistered, or junk vehicles, accumulated rubbish, and unsafe structures. This survey is in conjunction with the Grayling City Ordinances #72-3 (junk), and #22 (nuisance or unsafe structure), according to Pete Stephan, Grayling Chief of Police.

Survey results last year indicated a tremendous improvement over that of past years. Grayling residents are obviously becoming increasingly aware of Community pride. The City of Grayling would like to bring this improvement to the public awareness, also we would wish to express appreciation to residents for this improvement.

In advance of the Summer season, the Police Dept. again will be mailing correspondence to owners, or tenants of businesses, and private residents having questionable material accumulated on their property. Citizens are requested to cooperate jointly in this attempt, anyone wishing information as to methods for disposing of junk, or old vehicles, may contact the Grayling City Office (348-2131).

## Chemical Corp. Offers \$2,000 Reward

Chemical Financial Corporation, the holding company for Chemical Bank North, of Grayling, is offering a \$2,000 reward for material information leading to the arrest and conviction of the person or persons involved in the bank theft March 29th or 30th.

Anyone with information about the theft can call the Grayling City Police at 348-4621 or the Crawford County Sheriff Department's anonymous tip line at 348-6341, ext. 3000.

The theft involved a large sum of money less than \$50,000 according to the Grayling City Police. G. Thomas Snyder, Jr., vice-president of the Chemical Bank and Trust Company, said it is against their company policy to release the exact amount of money taken in a theft or robbery.

Grayling Police Chief Pete Stephan had nothing additional to release this week concerning the theft. The Grayling City Police and FBI are still questioning persons and investigating leads.

The theft took place after the bank closed Friday, March 29, at 7 p.m. and before 8:30 a.m. Saturday, March 30, when the money was discovered missing by bank employees preparing to open.

Three ivory-colored trays containing mostly cash were taken. Stephan said no forcible entry was made at the bank.

The bank was closed Saturday, March 30, while police checked for clues. It reopened Monday, April 1, for business and Mark Furst, of Chemical Bank North, said the theft has not interfered with normal operations.

## Folks Fond of Fish Food

By Jon Thompson

You'll never see a "Don't Feed The Fish" sign at the Grayling Fish Hatchery.

Feeding the trout is too popular with everyone involved. The visitors to the tourist attraction must enjoy it. They dished out more than \$11,000 in dimes and dollars for handfuls or bags of fish food to toss to the trout.

The Fish Hatchery Committee has to like it. They were able to buy all the fish food for the year for 10,000 trout (a cost of \$4,109) and still have more than \$7,000 left in profit from fish food sales.

And the fish definitely like it — as anyone who has ever thrown food pellets to the hungry devils knows.

All in all, the fish food sales was one of the main reasons the Grayling Fish Hatchery finished \$3,800 in the black for 1984 — its second year of operation as a tourist attraction.

Fish food sales brought in \$11,421 in 1984, entrance donations amounted to about \$3,767, and other donations totaled \$1,043. The fish hatchery also received a Private Industry Council grant for \$12,000 toward hiring employees.

## Grayling Hosts State School Band Festival

Grayling will be hosting the State High School Band and Orchestra Festival this year on April 26th & 27th. Twenty seven bands will be participating with a total of over 1,200 band members, directors, and chaperones visiting Grayling that weekend. Performances in the Joseph Stripe Auditorium are free of charge and open to the public beginning at 5:30 p.m. until 9:30 p.m. on Friday, the 26th, and Saturday, 8:00 a.m. until 5:00 p.m.

A Band Booster Club has recently been organized in Crawford County to provide parent and community support for the Instrumental Music Program and to raise funds for activities for the students enrolled in the Band classes. The first meeting is Tuesday, April 16th, 7:30 p.m. at the High School Band Room.

Those interested in attending the first Band Booster Club meeting should contact one of the following persons: Thomas Herndon at 275-8334, Natalie Tinker at 348-9704, Jim Hindmarsh at 348-8074, or Jim or Linda Adams at 348-3020.

## Public Review For Huron-Manistee National Forest

For the next 90 days, canoeists, hunters, loggers, and other users of the Huron-Manistee National Forests have an important task. Tentative plans for managing the Forests' natural resources have been made and now need public review, announced Forest Supervisor Wayne Mann today.

The proposed land and resource management plan sets specific objectives for the timber, wildlife, fisheries, recreation, soil, and water resources on the 950,000 acres of National Forest. It also sets the guidelines for any management activities undertaken in the next 10 years.

The proposed Land and Resource Management Plan is part of a package of planning documents being submitted for public review and comment. Also included are maps and a Draft Environmental Impact Statement.

### Survey Could Change Wage Requirements for Federal Projects

Bob Diesing, Executive Vice-President of the Northern Michigan Chapter of Associated Builders and Contractors announced the establishment of a prevailing wage survey program for Otsego, Crawford, and Kalkaska counties. The purpose of the survey, he explained, is to assist the U.S. Dept. of Labor, Employment Standards Division, in gathering accurate wage data in order to compute prevailing wages under the Davis-Bacon Act.

Diesing stated that many area contractors are already in receipt of the survey forms, and their input and positive approach will be an important factor in the success of this survey. He also mentioned that participation in this program is strictly voluntary and is open to all contractors that have worked on private and commercial projects in the three county area.

Any information received is confidential and will be used only for submittal to the Dept. of Labor. He also explained that if enough information is obtained by the survey, the Dept. of Labor will review and possibly change the prevailing rates and contractors will not be prevented from bidding on federally funded projects because of exorbitant wage requirements. If any contractors in these counties would like to participate, and haven't received a wage rate survey form, please contact the chapter office at (517) 732-6211 and a form will be forwarded.

## Mercy Hospital Opens Sports Medicine Clinic

A new Grayling Mercy Hospital Sports Medicine Clinic opened April 10, under the direction of Dr. Charles VanderRoest, chief of emergency services at Mercy Hospital, and Edward Yuiska, physical therapists.

The clinic will be open on Wednesdays from 4 p.m. until 7 p.m. in the MercyCare Clinic at the hospital. According to Mr. Yuiska, the clinic will provide a mechanism for evaluating individuals with injuries either caused by athletic activity or preventing the person from engaging in athletics.

"Early diagnosis is important in sport related injuries, especially to the young athlete who is hoping to get an athletic scholarship. The more time an injury goes untreated, the more it impedes the success of the treatment," said Yuiska. "We need to get to these injuries quickly and begin prompt treatment."

Dr. VanderRoest and Yuiska encourage any person with an injury to utilize the clinic. Referrals are not necessary. The clinic is set up to evaluate injuries and make recommendations on treatment. According to Yuiska, some individuals may be referred to their own doctor, to physical therapy, or to a physician specialist; the clinic is simply a means by which they can assess injuries and make prompt medical recommendations.

The clinic will be especially valuable to the local coaches at the many schools in the area. Yuiska envisions expansion of the clinic hours and days as more individuals become familiar with the service.

## Mercy Labs Open to Public

Grayling Mercy Hospital celebrates National Medical Laboratory Week, April 14 through the 20. According to Jeff Richmond, lab director, lab week is a time for community individuals to visit their local lab and see first hand what services are available. This year's theme is "The Medical Laboratory - In Pursuit of Answers."

Mr. Richmond said approximately 50 tours go through our facility a year. Tour groups range from preschoolers to college students studying for medical professions.

"We are very proud of our lab. We feel that the National Medical Laboratory Week theme best describes our laboratory staff's contribution to the quality of patient care and to the preservation of human life," said Richmond. "By participating in the diagnostic process, laboratory professionals are part of the health care team which also includes the attending physician, nurses, and other health professionals," he added.

National Medical Laboratory Week is co-sponsored by the American Society of Clinical Pathologists and other groups in approximately 13,000 laboratories and 6,000 hospitals throughout the U.S. Its purpose is to foster better communication and understanding among laboratories, hospital employees and the communities in which they serve.

Grayling Mercy Hospital has 12 trained laboratory technologists that provide 24-hour coverage in the Grayling area. Over 120,000 laboratory tests are conducted each year at Mercy. Richmond said their goal is to process tests as quickly as possible and get statistics out to our physicians to aid them in making prompt diagnoses.

## From Our Corner...

I want to go back to Vegas...even more so after last Saturday's storm that had the earmarks of a February blizzard except for the temperature...it was near 30 degrees Saturday against the near zero conditions we experience in February...we have been more envious lately since we have followed the weather conditions out in Vegas where it has averaged between 80 and 90 for the past week, and we have had everything but spring during April this past week...we waited to go out west until the last two weeks in March expecting to find real nice weather when we returned...not so, April so far has been a bummer...it had better change soon if we are going to have those April showers to bring May flowers, or so the saying goes...

Grayling received an undeserved black eye in an article that appeared in the Michigan United Conservation Clubs magazine "Michigan Out-Of-Doors" authored by Jerry Wagner entitled "In Praise of the AuSable" the article was well written except for one paragraph that the author did not research very well when he wrote it, we quote:

"In Grayling, our modest little river of only a few miles back will be thrust into the limelight of a city life for the first time as it winds by homes, canoe liveries, and public and commercial buildings of one nature or other. About 600 feet above the East Branch, the disposal plant discharges into the river and our river now has come of age. Not to be forgotten, the East Branch held the first trout ever planted in the AuSable. Taken from the Jordan, they were released in the river by Rube Babbitt." unquote.

Grayling's City Manager, Jerry Morford, last week, sent a letter to Thomas L. Washington, Publisher of Michigan Out-of-Doors in response to the article and explaining the true facts that the city has done everything in its power to keep the AuSable as clean as can be...

Mr. Morford further pointed out the fact that the city had abandoned the sewage treatment plant in question in 1971 and has not discharged any sewage effluent into the AuSable or any other stream since that time...

We would also like to mention that we remember when the sewage treatment plant was first built it was given the green light and blessings by all of the Michigan departments that had any control over such matters as a safe way to discharge the sewage from the city...it was later found that what was being discharged into the river was detrimental to the fish for survival so at that time the city immediately turned to the present lagoon system of riding of waste material...

We feel as Mr. Morford stated in his letter that he believed Mr. Wagner has given the City of Grayling undue criticism for its use of the river. And being that Michigan Out-of-Doors is widely read we feel there should be some sort of retraction either by the author of the article or by the Publisher Mr. Washington, just to set the records straight...

It seems like it is a fight for survival for small towns as they try to lure some kind of industries into their midst to form work basis, so it does hurt when something like this happens when it has been so long ago since Grayling got rid of the treatment plant. We don't need any help from outside for criticism, it seems we can conjure up enough by ourselves around town...

We're going to cut this short this time...with Black Monday the 15th approaching fast there is a cartoon we hope we can fit in at the bottom, so we will bid T.J., Stefany and Amber goodnight, and to all of our readers have a nice weekend, we hope you're ready for Uncle Sam on the 15th...we're not...

## The Bible Speaks

From Calvary Baptist Church

### CAPITAL PUNISHMENT

There is another petition drive underway to reinstate Capital Punishment in Michigan for the crime of first degree murder. This will shock the little pink hearts of liberal politicians and preachers who are quick to defend criminals, Communists, and other corrupters of morals and ethics. Liberals only fight against innocent, helpless, aborted babies, American military heroes, rugged individualists in business, Bible-believing Christians, and others who pose a threat to their path through Humanism into Socialism and Communism.

The Bible basis for Capital Punishment is the basis for the authority of human government found in Genesis 9:6. "Whoso sheddeth man's blood, by man shall his blood be shed: for in the image of God made he man." Murder is a sin against the image of God in man, and therefore Capital Punishment is divine punishment carried out by God through human government to maintain respect for human life as a gift from God.

This government authority to inflict corporal punishment continued into the New Testament era. "For rulers are not a terror to good works, but to the evil. Will thou then not be afraid of the power? do that which is good, and thou shalt have praise of the same: For he is the minister of God to thee for good. But if thou do that which is evil, be afraid; for he beareth not the sword in vain: for he is the minister of God, a revenger to execute wrath upon him that doeth evil." Romans 13:3, 4. God grants government the authority to execute wrath with the sword, an instrument of death to carry out His will.

The great apostle Paul when falsely accused, appealed to Caesar's judgment

seat and clearly defended capital punishment even if he were found guilty. "For if I be an offender, or have committed anything worthy of death, I refuse not to die..." Acts 25:11a. Paul believed the Roman government had the moral and civil authority from God to kill criminals.

Those who feel sorry for criminals who might die by Capital Punishment should be reminded that unrepentant murderers "...shall have their part in the lake which burneth with fire and brimstone, which is the second death." Revelation 21:8. Failure to carry out God's will against their physical life while here on earth, may lead them to think God may not punish them in Hell which is a far greater punishment. If on the other hand, a sentence of death in this life causes them to repent and accept Jesus Christ, it would be to them an act of mercy and kindness.

The argument that innocent will die by accident is best considered by the present problem of thousands of innocent victims murdered each year by cold, hardened criminals. Jesus Christ was the greatest example of an innocent person executed by civil government, yet He never spoke out against the use of Capital Punishment.

If you would like to circulate a petition to restore Capital Punishment in Michigan, please request one from a member of Calvary Baptist Church.

Pastor Barnett

## Herbal Corner

A lot of women have been told by their pediatricians to not give their infants honey until after their first birthday.

My readings have indicated that some honey contain a minute amount of botulism. The amount is so small that anyone a year old and up can usually digest it without any problems. An infant, however, still has a sensitive digestive system; and it is for this reason that some pediatricians feel honey should be abstained until the infant has reached the age of one year.

Studies have also indicated that this botulism usually comes from the honey imported from overseas. If you have already been giving your infant honey with no problems, by all means continue using it. Should you give your infant honey and he experiences vomiting, high fever, contact your physician immediately; and of course, discontinue the use of the honey.

This author has spoken to several parents who have given their infants honey purchased from a local dealer and have had no problems.

Herbally yours,  
E. Diona Cerelli

It would be a pleasure to report that over the years we have had competent people managing our road maintenance. But a look at West AuSable Trail Rd. today will show that over 15 years of neglect and just the use of Band-aids will not suffice.

This serious problem leaves we Taxpayers stuck with a deplorable situation. We have searched for a solution. Since persuasion hasn't worked, maybe we should donate a book on Road Maintenance to the Commission. Another option might be to try and lure one of the commissioners to live on our road.

## CARD OF THANKS

We would like to thank those who sent cards and prayers. To our relatives, the Ernest Larson families for their visits, cards, telephone calls and prayers. To the Grayling Fraternal Order of Eagles for the lovely plant. To all of those who touched our lives, and making my illness easier. Our sincere thanks to each and everyone.

## Little League Registration Apr. 13-20

The Grayling Little League will hold registration for the 1985 season on Saturday, April 13 and 20 from 10 a.m. to 3 p.m. in Council chambers at Grayling City Hall.

All boys and girls who plan on playing Little League baseball this year must register, even if they have played before.

To register you must be at least 8 years old by August 1, 1985, have a parent with you, and bring a non-returnable copy of your birth certificate.

Participation fee will not be collected at this time but will be collected by the coaches prior to the start of the season.

A reminder again that even if you have played before all boys and girls must register this year.

## Booster Club Dinner April 20

The annual Grayling Booster Club Swiss Steak Dinner will be held 4:30 to 8:30 p.m. Saturday, April 20, at Patti's Country House. Tickets are \$5 for an adult and \$2.50 for children 12 and under.

## Las Vegas Night Offered At Hanson Hills April 27th

Hanson Hills will be offering a Las Vegas Night on Saturday, April 27, from 7:00 p.m. to 2:00 a.m. Black Jack, Beat the Dealer, and other games of chance will be played. Set-ups will be available and the food concession will be open. Tickets are \$5.00 in advance and \$6.00 at the door, which includes \$2.00 worth of chips.

## Grayling High School To Present Broadway Classic

On Thursday, Friday and Saturday, May 9, 10, and 11, 1985, the Grayling High School Players will present the Broadway Musical "Camelot" in the Joseph Stripe Auditorium. Tickets for the production are presently on sale and can be purchased at the Board of Education office building on Mich. Ave. or they can be ordered by mail by writing Camelot, Community School Office, Grayling High School, Grayling, MI 49738. Price of admission is \$5.00 for all performances and all seats are reserved.

"Camelot" is the adaptation of the story of King Arthur and the Knights of the Round Table for the Broadway stage by Alan Jay Lerner and Frederick Loewe, the talented creators of "Brigadoon" and "My Fair Lady". "Camelot" opened December 3, 1960 at the Majestic Theatre in New York City and ran up a total of 873 performances before it took to the road. The original cast included such notables as Richard Burton, Julie Andrews and Robert Goulet. Also present in that original cast was Roddy McDowall who was at that time just beginning his acting career.

Literally thousands of man hours of labor and several thousand dollars are being put into the preparation of "Camelot". The 2 acts, 19 scenes and 21 musical numbers are presently quite a challenge to the members of the GHS Players. In addition to the scenery and costumes, both of which are most elaborate, a great deal of time is being spent on the study of the show in an effort to create a theatrical experience which will long be remembered by the audience.

In addition to the Grayling High School students who are involved, many adult members of the Grayling and surrounding communities are pitching in to lend a hand with the painting of scenery, the sewing of costumes or playing in the orchestra. Anyone who is interested in assisting with this production is most welcome. More information can be obtained by calling the Community School Office at 348-7641.

## Arts Council's Bits O'Talk

Students in the Crawford County Arts Council's dance program continue to rehearse for their annual spring recital, to be held in late June. Upon request by instructor Louise Hayes, the CCAC has consented to change the dates of the recital, featuring the ballet "Cinderella", to June 28 and 29.

The Arts Council's next business meeting will be held on Tuesday, April 16, at 7:30 p.m., in the Community Room of Chemical Bank North. The executive board will meet the evening previous, so that the business meeting can be kept short.

The next dance committee meeting will be held on Sunday, May 5. Dance committee members are urged to attend, as recital plans will be finalized.

**RSVP Reports**

By Aleta Thompson, Director

I want to say how much we appreciate Ingabore Leslie, Vera Gunderson, Donna Davis, Edie Adams, Monnabelle Brannon and Don and Margaret Miller for helping us here at the office. They have all been so willing to help us answer phones, work on green tapes, putting our newsletter together and many other tasks which, we would be lost without their assistance. You are a energetic group and thanks again.

Our returning snowbirds have began arriving back in Grayling and I'm delighted to have them stop in and say their back. Imagine they are surprised to see they have a new director.

Now that the weather is warming up, we will be looking for volunteers to work the summer stations. Wendall Hoover, from Hartwick Pines, will be here April 16th at 10 a.m. to talk with you about the summer program there.

R.S.V.P. is a challenging and rewarding program here in Grayling. Our volunteers serve an average of four hours a month. Each receives a brief orientation prior to their assignment and is provided supervision, in-service instruction and recognition. The only criteria for participation in R.S.V.P. is that a person be 60 years or older. If you are interested, come in to see us at 308 Lawndale or call 348-4341 or 348-8322.

**Obituaries****Services Held For Clarence Hoesli, 59**

Clarence C. Hoesli, 59, of Grayling Township, passed away Sunday, April 7, 1985 at Grayling Mercy Hospital. Funeral services will be held Wednesday, April 10, 1985 at 2:00 o'clock in the afternoon at Sorenson Funeral Home. The Reverend Donald Roberts will officiate, burial will be in Beaver Creek Cemetery.

Mr. Hoesli was born in Grayling to Chris and Nella (Corwin) Hoesli on August 11, 1925. He returned to Grayling ten years ago from Birch Run where he had been employed as a Transmission set-up man at the Buick plant in Flint. He was a member of A.S.E.R.T., Crawford County Sheriff's Department Reserves, and the American Red Cross.

He is survived by one daughter, Ann Bale and one son, Gerald Hoesli both of Grayling; five grandchildren; one sister, Dorothy Malling of Punta Gorda, Florida and a brother, Kenneth Hoesli of Gladwin. He was preceded in death by his wife Laura in 1982.

The family suggests memorial gifts be directed to the Michigan Heart Association.

Mr. Derek McEvers  
307 Chestnut  
Grayling, MI 49738

Dear Mr. McEvers:

First let me congratulate you on the way in which you explained the necessary procedures in arranging for funerals. Your explanation of the charges for cremations and other services was very helpful. This should clear up any doubts or questions that people might have.

On rare occasions there have been a few funeral directors who have not lived up to the code of ethics of your profession. But by the same token we in the Christian ministry have a few "hucksters of religion".

Your openness in dealing with all aspects of your profession makes me still believe that we are a most fortunate people to have you in our community as one of our dedicated servants.

Very Sincerely,  
William H. Fraser,  
Retired United Methodist Pastor

**Legal Notice**

STATE OF MICHIGAN  
In The Circuit Court For  
The County of Crawford  
File No. 85-1027-CK  
Jack C. Kaiser, Plaintiff,

vs  
Armando Menendez and  
Gwen Lynn Menendez,  
formerly Gwen Lynn Lutz,  
husband and wife,  
Defendants.

ORDER TO ANSWER  
At a session of said Court held this 8th day of April, 1985, in the City of Gaylord County of Otsego, State of Michigan.

Present: Richard J. Liedel, Acting Circuit Judge.  
On the 31st day of January, 1985, an action was filed by Jack C. Kaiser, Plaintiff herein, against Armando Menendez and Gwen Lynn Menendez, formerly Gwen Lynn Lutz, husband and wife, Defendants, in this Court for foreclosure of a certain land contract between the parties hereto dated September 12, 1981 and that Defendants are in default of the subject land contract by non-payment of three installments of \$150.00 each for a total of \$450.00 and non-payment of taxes and insurance. Plaintiff hereby elects to declare the entire unpaid balance of \$15,042.52 together with interest from May 11, 1984 at the rate of 10% per annum, no part of which has been paid.

IT IS HEREBY ORDERED that the Defendants, Armando Menendez and Gwen Lynn Menendez, formerly Gwen Lynn Lutz, husband and wife, shall answer or appear and take such other action as may be permitted by law on the 16th day of May at the Circuit Courtroom, County Building, Grayling, Michigan.

Defendants are hereby notified that they may, at any time prior to the Court date, contest this case by appearing themselves or by an attorney of their choice in the Circuit Court Clerks Office, and filing a written answer to the complaint herein made, or they and their attorney may on the Court date, present their defense at which time the matter will be heard by the Judge in the above Courtroom. Failure to appear on the Court date designated above will result in a Default Judgment being taken against you for the relief demanded in the Complaint. Defendants may demand a trial by Jury in which case the jury fee must be paid.

### Mazda Problems a Clue?

by Richard Millman

SEVERAL MONTHS AGO, Gov. James Blanchard led a group of Michigan public officials and business persons on a trip to the Far East, stopping first in Japan to woo the Mazda car people who were planning a plant in the United States.

A few months ago, Gov. Blanchard and Mazda officials announced with great flourish that Mazda would indeed build an assembly plant in Flat Rock, Mich., providing thousands of jobs and a much-needed boost to Michigan's overall economy and car-construction industry in particular.

Everyone cheered at Mazda's choice and the Blanchard team efforts to win the bonanza for Michigan. Properly so. It was a good effort by Michigan folks, and a fine plum for the state.

BUT IT DID NOT come easily. The name of the game in plant location is incentives, and Mazda carted off a promised bundle of them, including (according to a recent published list):

- \$19 million from the state for labor training.

- \$4.1 million from the state for road and rail improvements.

- \$1 million from the federal Economic Development Administration for sewers.

- \$21 million from the state Job Development Authority for pollution control bonds.

- \$20.3 million promised as a Federal Urban Development Action Grant, known in the development trade as a UDAG grant.

- And a whopping \$73 million estimated in property tax breaks from the city of Flat Rock from a 12-year 100 percent tax abatement agreement.

But everybody seemed to agree it was all worth it to snare the Mazda production facility. The jobs it created would more than offset the tax costs, it was reasoned. And few argued.

BUT THEN a few days ago, a couple of snags developed.

Federal officials reduced the UDAG grant from the expected \$20.3 million to a comparatively piddling \$2.5 million, on the premise that the lower figure was all that fit under the federal guidelines.

No problem, promised Gov. Blanchard.

Any difference in funding would be made up to assure the Mazda project would receive all it was promised. The financing "is assured," Blanchard said... and Doug Ross, Michigan's commerce director, promised the state would make up the difference somehow, despite what he called "lack of cooperation" from the federal government.

Then another problem surfaced. The Detroit Building Trades Council and Mazda were in some sort of labor union dispute even before the first shovel of dirt was turned on the huge Flat Rock project. Gov. Blanchard called both sides to sit down and reason together, and hopefully peace will prevail.

So the Mazda project — after such an encouraging beginning — is off to a rocky start. Hopefully all problems will be resolved in time for the late-April construction start, and people will get their anticipated new jobs right on schedule. Gov. Blanchard has sounded optimism all the way along. We trust he is right.

MEANWHILE, state job-seekers continue to lust after the new Saturn car plant which General Motors is going to build. Blanchard and others are hopeful, and working hard to induce the decision-makers to keep GM expansion right in GM's home state.

But don't bet on it. All you need do is look at the Mazda record, and see problems ahead for Michigan's Saturn search.

Was Mazda a case of over-promising, come home to roost? Was it an added case of union intransigence — a charge which dogs all Michigan efforts to find new industry?

From what we read in the papers, probably both guesses contain a kernel of truth.

Michigan has come a long way in its efforts to unite various segments of our state society and state economy to lure outsiders as job-producers to locate here. The successful Mazda effort proves this improvement.

But as a place to locate new job-producing business, Michigan still has a long way to go. Unfortunately, the Mazda troubles also prove the problems.

### LSD Found on Children's Stickers Reported in West Michigan Area

LSD stickers shaped like blue "tattoo" stars or squares with favorite children's characters have been reported to be circulating in the west Michigan area, warns the Michigan Sheriffs' Association (MSA).

MSA Administrative Director Sharon Rimek says the tattoo, called "Blue Star" is a small sheet of white paper containing blue stars the size of a pencil eraser.

"Each star is impregnated with LSD and can be removed from the paper to be placed in the mouth," she explains. "The drug also can be absorbed through the skin, simply by handling the stars."

Rimek describes the paper tabs with children's characters as looking like postage stamps in size and come five one-inch stamps to a page, packaged in red cardboard with a picture of Mickey Mouse on the box.

"They are brightly colored with pictures of Superman, Mickey Mouse and other Disney characters, plus

other favorite images like butterflies, clowns, etc.," Rimek adds.

Rimek says authorities have determined this is a new way of selling LSD, also called "acid." It stands for lysergic acid diethylamide, an hallucinogenic drug that could result in a fatal "trip" for a young child.

Rimek adds it is feared these stickers may find their way into the hands of children, who either may handle

them or "tattoo" young siblings for fun.

"Anyone having information about these stickers should contact their local sheriff or other law enforcement agency immediately," Rimek urges.

### Computers To Save Unemployment System \$33 Million

Warren M. Hoyt, Executive Dir., MPA

The final links of a computer project for the state unemployment compensation system will be in place this summer, resulting in savings to employers of at least \$33 million a year, labor officials reported recently.

The savings will help pay for the system over two years, but its \$81.5 million cost is a sore point to state employers, who were initially told the automation project would cost them about \$17 million.

Fred Jones, Jr., deputy director of the Michigan Employment Security Commission, said officials would continue to work with members of Congress and the state legislature to pay for at least the \$25 million in staff costs for the system.

Originally, officials expected federal funds to cover \$40-50 million of the costs, he said.

Jones said federal officials have decided not to pay for any state's fixed costs for such systems, even though it is responsible for administration costs and its account has a surplus approaching \$1.4 billion.

Only employers with negative balances — those whose unemployment insurance taxes are less than benefits paid to their former employees — pay the solvency tax used for the automation project.

Jones said as of early April, when employer contributions are fully computerized, businesses will begin to really see savings and the entire system will be automated by July 1 when employer credits are added to the computers.

"He said the \$33 million in estimated annual savings — by preventing overpayments — is a conservative estimate, based on the current, all-time low workload.

"Now we have a working computer system that has the processing power needed not only for our current claims levels, but also for any claims load we might expect to accompany a future major recession," Jones said.

He added the computerized system will reduce claimant fraud and MESC administrative errors.

Jones said General Motors Corporation and Chrysler Corporation already are on the system providing computer tape matches of

their employee rolls with MESC claimants and others will be added to the system later.

The computer tapes may also be used in fraud detection and prevention in the Dept. of Social Services, he said.

Jones said the automated system of benefit payments has already helped improve administration of that system, to where 75 percent of the claimants have waits of not more than one hour and 95 percent are served within two hours.

**Teacher Certification Changes Proposed**  
The State Board of Education has given preliminary approval to changes in the Michigan Teacher Certification Code providing that, effective September 1, 1988, all new middle level teachers (grades 6-8) could teach only subjects in which they have a major or minor.

The proposed changes would also require all future teachers, those certified after that date to renew their teaching certificate every five years.

Exempted from the middle school teacher certification rule would be teachers teaching all subjects in grades 6, 7 and 8 in a self-contained classroom.

State Superintendent of Public Instruction Phillip Runkel said the board gave preliminary approval of the plan to amend the code for the purpose of holding public hearing on the rule changes.

He said public hearings will be held in May and further recommendations for changes, as a result of the hearings, will be brought back to the board in July.

Under present teacher certification rules, elementary teachers may teach any subject in kindergarten through the eighth grade while teachers who have a secondary certificate may teach any subject in grades seven and eight but must teach their major or minor in grades 9 through 12.

The proposed rules also would require elementary teacher education programs to include the study of the growth and development of both the pre-adolescent (ages 5-9) and early adolescent (ages 10-14) students while secondary teacher preparation programs must include study of growth and development of pre-adolescents and adolescents.

Starting an Individual Retirement Account makes great sense, but opening now before April 15th of 1985 makes even better sense. Because by doing so, you can deduct the amount you deposit on your 1984 income tax return. You'll get an immediate tax break now, and increasing financial security for the future. And, the amount you deposit (up to \$2,000 individually; \$4,000 for a married working couple) is up to you. Each year you can save the maximum amount, or less, as your budget allows. It's a great idea, and a great time to start.

### Drive To Help Injured Grayling Man

Members of Aid Association for Lutherans (AAL) Branch 4207, Grayling, are launching a \$10,000 fund drive to benefit David Zavasky of Grayling, who broke his back as a result of an automobile accident.

Branch members are organizing a variety of fund-raising activities to pay for housing, transportation and other expenses for Zavasky to receive three to seven months of rehabilitation care out of town.

Branch volunteers are participating in AAL's Co-op Benevolence Program, through which AAL supplements the money raised locally to help AAL volunteers reach their financial goals.

AAL is the nation's largest fraternal benefit society, enabling 1.3 million Lutherans and their families to help themselves and others through insurance and other fraternal benefits. There are approximately 107,000 AAL members living in Michigan.

### Doodles From The Tall Timber

by Wendell L. Hoover  
Park Interpreter

Here we are into April, but looking across the yard here at the park headquarters one would think November had returned. As the Easter season is just around the corner I was thinking about the various weather sayings that go with this time of year or at least might be appropriate.

For example, many repeat the saying about March. "In like a lamb, out like a lion; In like a lion, out like a lamb." For the month of April there are three. "When April blows her horn (thunder) it's good for hay and corn," or "If it thunders on All Fools Day this assures your crop of hay," and "The colder the April, the better the farm crops".

For Easter I know of two. "Before Easter, winter is not to be trusted," and "Whatever the weather on Easter Day, so will the weather be for seven Sundays thereafter with the exception of one."

Speaking of Sunday, how about this saying. "If it storms the first Sunday of the month, it will storm every Sunday of the month". This saying may sound silly, but records have been kept showing it to be as much as 90 percent true over a period of ten years, according to the circus people who have kept the records.

While such sayings may seem foolish in this day of modern weather forecasting, they are still fun and very much a part of our historical heritage.

### Birchwood To Sponsor TV Documentary

Alpena General Hospital's Birchwood, Center for Chemical Dependency will be sponsoring a television documentary entitled "All Alone Together."

"All Alone Together" is a dramatic examination of the destruction alcohol can cause in a family. The program is a documentary portrait of the Dinsmores, a suburban, middle-class family that came to the point of disintegration. Alcohol became both a symptom and a cause of the problem, leading to divorce and chemical dependency problems for four of the six children.

During the telecast viewers will be given the opportunity to call-in and ask questions that they may have. A live panel including Father Martin, author of "No Laughing Matter" and a leader in the alcoholism field; Stan Laskowski, Program Director at Birchwood; and other professionals in the field of alcoholism will be on hand to respond to the viewers questions.

"All Alone Together" will be aired on Sunday, April 14, at 7:00 p.m. on Channel 7 & 4 Traverse City/Cheboygan. Be sure you take the time to watch this informational and dramatic documentary.

**High Blood Pressure**

By Donald D. Burkley, M.D.

Hypertension, commonly referred to as high blood pressure, affects an estimated 35 million people in the U.S., approximately 1 out of every 4-5 adults. Untreated, high blood pressure silently damages the blood vessels and heart leading to complications such as stroke, heart disease, and kidney failure.

Hypertension refers to the persistent elevation of pressure in the arteries which are the blood vessels that carry blood from the heart to all parts of the body. This constant extra load on the walls of the arteries and heart eventually can cause serious damage and complications. This "overload" causes atherosclerosis (hardening of the arteries) to progress more rapidly. Hypertension is in fact a major risk factor in heart attack and stroke which are two diseases that cause over 800,000 deaths in a year.

Blood pressure can be easily measured with an instrument called a sphygmomanometer, which is a simple pressure gauge attached to an inflatable arm cuff. This is generally easy to do and many patients, with practice, are able to measure their own BP. The blood pressure constantly goes up and down with each beat of the heart. It is actually the upper and lower limits of this pressure variation that we measure. The higher being called the systolic pressure and the lower the diastolic pressure.

**Dawn Patrol Planned For Sunday, May 5**

The Kirtland Community College Aviation Chapter will be hosting their Ninth Annual Dawn Patrol on Sunday, May 5, 1985, at the Grayling McNamara Airport.

An aerobatic show will be held from 11:30 to 12:30 p.m. by Don Ziegler and Chuck Scherping. The airport will be closed during this time.

A pancake and sausage breakfast will be served from 7:30 to 11:30 a.m., and sloppy joes, hot dogs and soda will be available from 11 a.m. on.

Exhibits and events will include KCC Aviation Facility tours, experimental aircraft, a military display, sky diving, helicopter rides (provided by B and G Helicopter), ultralight aircraft, and an airplane show.

Trophies will be awarded to the youngest pilot, oldest pilot, oldest aircraft, and farthest distance flown (must be present to win).

Admission to Dawn Patrol is free. Persons from the community are invited, and are encouraged to bring their families and enjoy the day.

In persons under 50 years of age, a systolic pressure over 140 is considered to be elevated. In persons of 60 years or older normal systolic pressure may be higher because the arteries become less elastic with aging. The lower pressure reading (the diastolic) should be less than 90-95 at all ages.

The cause of the most common type of high blood pressure, (primary hypertension), isn't known, but we know that it is related to age, heredity, stress, and salt intake. In secondary hypertension, which is a very small percent of cases of hypertension, a specific cause can be found. These causes include chronic kidney disease or infection, excessive adrenalin secretion, and narrowing of one of the arteries to the kidneys. These causes can at times be corrected, resulting in a permanent cure. However, most cases of hypertension are of the undetermined cause and require lifelong treatment with medication and a salt restricted diet.

Your doctor can usually tell if you have primary or secondary hypertension on the basis of a medical history, a physical exam and a few basic tests. This work up can usually be done in the doctor's office and is relatively inexpensive.

The good news is that in most cases high blood pressure can be very effectively treated, virtually eliminating the increased risk. The bad news is that many people don't know that they have high blood pressure or don't really appreciate the seriousness of it.

Fortunately, there are a number of blood pressure screening and monitoring programs in our community. For example, the Red Cross and Mercy Hospital provide free blood pressure check for anyone. This service is available in Mercy Hospital's main lobby between the hours of 3:30 until 7:30 p.m. on the 4th Monday of each month.

Everyone should have a periodic blood pressure check. Ideally this should be done once a year if your blood pressure is normal, and perhaps more often if it is borderline. Because blood pressure may normally vary up and down, repeated checks may be necessary to determine if hypertension is truly present.

Once hypertension is proven to be present, the real key of success is sticking to the treatment program over the long haul. This usually means taking medications faithfully every day, and seeing your doctor periodically for follow-up.

**March of Dimes Walk-A-Thon April 27 & 28**

It's the biggest "athon" of them all, and it's happening all across the country April 27 & 28. It's the annual March of Dimes Walk-America, a mammoth fund-raising event in which more than a million Americans will put on their walking shoes to raise money to fight birth defects.

This year citizens of Crawford County can join the nation in WalkAmerica by turning out at Hanson Hills, April 28th to make the walk starting at 1:00. Registration from 12:00 to 1:00.

Birth defects are this country's number one child health problem, striking 250,000 babies every year. Money collected from Walk pledges will assist the March of Dimes programs of research, medical services and education.

We hope each of you will either walk or sponsor some walkers, to help give future children the healthiest possible start in life. For more information, contact Janet SanCartier at 348-5073.

**In Memorium**

In loving memory of my husband, Edward Nelson Walker who left so suddenly April 11, 1984.

Walk slowly down that lonely road for I will be coming soon.

Sadly missed

**1985 Young Careerist Named by BPW**

Kristine W. Mol, a Credit Analyst for NBD Roscommon Bank, has been named Young Career Woman for 1985 by the Grayling Business and Professional Women's Club (BPW).

Ms. Mol will represent the Grayling BPW Club in a District YCW competition on Saturday, April 13th in Cheboygan. Judging will be based on the candidate's career achievements, a three minute speech and personal interview.

A graduate of the University of Michigan, Kristine is the daughter of Gerhard and Helena Wolf of Roseville, Mich. She is married to Michael W. Mol, a DNR Conservation Officer in Roscommon County. They reside in Prudenville.

If you would like information about the Grayling BPW Club, contact president Elsie Jansen at 348-5872 evenings.

**Nursing Seminars Scheduled In Grayling**

Mt. Pleasant - Three nursing seminars will be presented in Grayling by Hurley Medical Center Nursing Staff Development in cooperation with Central Michigan University's Continuing Education and Community Services office.

"Ostomy and Decubitus Update" (April 30), "Substance Abuse Update" (May 1), and "Update on Orthopedic Trauma" (May 2) will begin with registration at 8:30 a.m. Classes follow from 9 a.m. to 4:30 p.m. All sessions will be held at the Holiday Inn, 2650 I-75 Bus. Loop, Grayling.

The seminars are designed to update the following skills: care of the ostomy patient; prevention and treatment of decubitus ulcer; identification of the substance abuser; nursing management of the substance abuser in the general hospital setting; and assessment, stabilization, and management of orthopedic injuries.

Registration deadline is April 17. For further information, please contact Sharon Horgan, CECS, Rowe #126, Central Michigan University, Mt. Pleasant, MI 48859 or (517) 774-3718.

Hurley Medical Center and CMU reserve the right to cancel these sessions if there are insufficient registrations.

**Resource Review**

By Bruce Patrick Conservation Officer

Starting April 1, the DNR began issuing "fuelwood" permits which allow the permittee to cut dead wood on state land for personal use. This has become a very popular program with thousands of such permits issued each year.

Unfortunately, a major problem has developed through this program. A large number of unscrupulous permit holders take advantage of their privilege and sell the wood. This may not seem to be serious to you, at first glance. However, if you stop to consider some of the ramifications you may change your mind.

First of all, these thieves are stealing from the honest permit holders and the people of the state.

Secondly, many of these persons are on some sort of assistance program, which means your tax dollars subsidize their illegal activities. Speaking of taxes brings us to the third point, which is the sales tax they don't pay on their business. Next, consider the honest wood dealer who must try and compete with the wood thief. He has to pay normal business expenses that the thief doesn't have.

These are a few of the problems caused by the wood poacher. Just like a fish or game poacher, these folks steal from everyone in the state, and laugh as they count their money.

Various methods to rectify this problem have been discussed. Included are licensing wood sellers statewide and abolishment of the firewood permit program altogether.

A better way would be for the wood buyer to verify he is dealing with an honest operator. Those folks who are trying to make an honest living in the wood business are well-known in their community. Just as well-known are the thieves. Be sure you know whom you are dealing with.

## Chamber Chatter

Good news is coming early this year. We have just received a communication from the Bluewater Michigan Chapter stating that the Timberline Train will be visiting Grayling again this year. The beauty is that we can expect two visits from the train. Harold Frye, Director for the Chapter says "we will be operating the Timberline Excursion to Grayling again this fall. We are planning two trips Saturday, October 5th and Sunday, October 6th. These dates are already confirmed with the railroad. We will be arriving about 12:30 p.m. and departing about 5:00 p.m., both days."

The letter further indicates a desire to visit Hartwick Pines, Camp Grayling, and the Fish Hatchery. While the train (15 cars) is here, there might be an opportunity for local people to take a ride around the loop where the train turns around. Naturally, there would be a minimal charge for the ride that would be divided with the Rotary Club as a fund raiser. We have to put these plans together yet, but we're working on them. Got any ideas, let us know.

Along with the good news, most always you can expect some not so good. A very irritated motorist complained to us about the attitude of a couple of gasoline service stations. It seems that this motorist encountered a flat tire near the Grayling City Limits. He changed to the emergency spare tire and drove to town. The first station he stopped at, he was told that they could not fix the tire because it was almost time to close, but recommended a station across town. The motorist received the same excuse of nearly closing time, but suggested his competitor across the street who already was closed. The disappointed motorist, rather than drive the 18 miles home, decided to leave his car at a restaurant parking lot and call relatives for a ride home. The next day he had to have his flat tire fixed. What we are trying to point out is that another 15-20 minutes on the part of the station operator would have developed a happy motorist and a customer for further business. We certainly hope that this scenario does not happen again in the Grayling area. If you want the tourist business you must treat them with kindness. That generates dollars and friendly economic success.

Now some more good news — two new members have joined the Chamber of Commerce - Solar North Inc., David Gregory, Vice Pres. and Tom Schans Supply/Main Street Florals, Tom and Laura Schans.

A Big Welcome to our new members! That's the Spirit!

## CHURCH DIRECTORY

### Patient Tabby

Swaying on a limb outside my kitchen, a bird flapped his sleek black wings and curved his throat in a burst of pure beauty.

"Watch out!" I wanted to cry. For over by the woodpile Tabby crouched, carved in predatory silence. Stone-like she stared, as the bird warbled, and even after the songster flashed off in a streak, she sat impassively.

How like our Tabby we humans sometimes are. Caught in the frenzy of making a living, stalemated with problems, we look indifferently at our world. Forgetting that God reveals Himself in simple ways, we overlook the laughter of a child, the smile of a stranger, and the flaming colors of our landscape.

Your church can show you how to find joy in life again. Within its fellowship you can learn the happiness which comes from loving God and serving Him.

### ORDER TO ANSWER

On November 21, 1984 an action was filed by Miami Citizens Corporation, Plaintiff herein, against K. Curtis Woodcox, Defendant herein, in this Court for an action for claim and delivery. It appears from the records herein filed that the Plaintiff has made diligent inquiry to ascertain the present address of the Defendant and finds to other than that included on the financial transactions entered into with Defendant; that Ken Hey, private process server for Plaintiff, has made reasonable effort to serve the Defendant;

THEREFORE, Plaintiff is permitted to serve process upon the Defendant by publication pursuant to MCR 2.106 stating that an action for recovery of personal property has been filed in the Crawford County Circuit Court and that the Defendant, K. Curtis Woodcox, shall answer or take such other action as may be permitted by law on or before April 15, 1985. Failure to comply with this Order will result in a Judgment by Default against such Defendant for the relief demanded in the Complaint filed in this Court. Dated: March 19, 1985.

## Notice of Mortgage Foreclosure Sale

Default having been made in the conditions of a certain mortgage made the 29th day of December 1983, by Timothy L. Wakeley and Deborah R. Wakeley, husband and wife as mortgagor(s), to the United States of America, as mortgagee, and recorded on December 29, 1983, in the Office of the Register of Deeds for Crawford County, Michigan, in Liber 221 of mortgages on Pages 523-526; on which mortgage there is claimed to be due and unpaid at the date of this Notice Thirty One Thousand One Hundred Ninety Two and 26/100 Dollars (\$31,192.26) principal and Three Thousand Nine Hundred Sixty Two and 32/100 Dollars (\$3,962.32) interest; no suit or proceeding at law or in equity having been instituted to recover the debt, or any part of the debt secured by said mortgage, and the power of sale contained in said mortgage having become operative by reason of such default;

NOW, THEREFORE, Notice is hereby given that on May 22, 1985 at 10 o'clock in the forenoon at the front steps (east side) of the Courthouse in Grayling, Michigan, that being the place for holding the Circuit Court for the County of Crawford, there will be offered for sale and sold to the highest bidder, at public sale, for the purpose of satisfying the amounts due and unpaid upon said mortgage, the lands and premises in said mortgage mentioned and described, as follows, to wit:

That property located in Crawford County in the State of Michigan.

East half (E½) of the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 3, Town 26 North, Range 3 West, located in the Township of Grayling, County of Crawford, Michigan. The redemption period will be one month from the foreclosure sale. Property may be redeemed by paying the amount of the bid at the foreclosure sale plus 11.875% interest and any unpaid encumbrances on the property from date of sale. Dated April 10, 1985.

## Attention! Lady Softball Players!

It's that time of the year again! Time for the first meeting of the Grayling Womens' Softball League. This organizational meeting will be held at Chief Shoppe-nagon's Motor Hotel at 7:30 on Tuesday night, April 30th.

Established teams should have at least one representative in attendance. Any ladies who are interested in playing slow pitch softball who do not already belong to an existing team should attend also and we will help to put you on a team for the Summer of '85 season.

This is a good opportunity to bring new ideas and new players to our league. April 30th, 7:30 p.m. Chief Shoppe-nagon's. Be sure to mark it on your calendar!

## Gospel Singer at Kirtland Sun. Apr. 21

Gospel singer Doug Oldham will conclude Kirtland College's Performing Artists Season with a concert in the Kirtland Auditorium on Sunday, April 21st at 3 p.m.

Oldham has travelled over two million miles in his twenty year singing career and was a featured soloist on Jerry Falwell's television show "The Old Time Gospel Hour" for five years.

Churches are invited to call Bob Amsden at 517-275-5121 ext. 226 for information about group rates.

Regular ticket prices are \$5.50 for general admission and \$4.50 for students or senior citizens.

## Former Boy Scouts Needed

Please help Boy Scout Troop 979 earn the "Diamond Jubilee Alumni Search Award". To earn this award we need to have the names and addresses of any former scouts as well as when they were in scouting and where.

Please call Loren Goodale at 348-9414 with this information.

## Plant for Wildlife

The Crawford-Roscommon Soil Conservation has two new wildlife packets for food and cover for birds and animals available this spring:

Packet A for well-drained, sandy soils, contains 20 autumn olive, 10 Russian olive, 10 crabapple and 10 hawthorne.

Packet B for moist, loamy soils, has 25 honeysuckle, 15 redosier dogwood and 10 Mt. Ash.

Also available at a low-cost to landowners for reforestation, windbreaks, erosion control, beautification and/or Christmas trees will be: red and white pine; blue, Norway and white spruce; Northern white cedar; hybrid poplar, silky dogwood and autumn olive. Seedlings are 5-10 inches in height and are 1-2 years old.

Call 275-5231 or stop in to the office at 409 Lake Street, Roscommon for order blank and information; or write P.O. Box 156, Roscommon, MI 48653.

## Forest Plan

(Continued from Page 1)

mental Impact Statement which describes management alternatives to the proposed plan and analyzes the consequences of each. Any one of the seven management alternatives could be implemented as the final plan.

Comments on these documents received before June 24 will be used to help revise the Draft Environment Impact Statement and to help select the management alternatives used as the Final Plan, Mann said.

Copies of the documents can be obtained from the Forest Supervisor's Office, Huron-Manistee National Forests, 421 South Mitchell Street, Cadillac, MI 49601. The documents are also available for viewing through your local library and at District Ranger offices in Manistee, Baldwin, White Cloud, Mio, Harrisville, and Tawas.
